Office Action Summary	Application No. 10/650,203	Applicant(s) BLACKWOOD, MARK	
	Examiner Emmanuel M Marcelo	Art Unit 3654	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claim 2 is objected to because of the following informalities: a period is needed after “brackets”, line 10. Appropriate correction is required.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent no. 2,032,654 to Ferrier.

Ferrier discloses a pulley system which comprises: a base structure 3, a vehicle 1 having a deck (deck of 1), a spindle (spindle on which 10 is mounted) being coupled to the deck, a rotatable drum 10, a means (bolts shown in phantom lines in Fig. 1) for mounting and removing the base structure 3 and rotatable drum 10 from the deck of the vehicle 1, two vertical safety brackets (6, 8).

Ferrier does not explicitly disclose bearings associated with the spindle. However, bearings are commonly used to promote smooth rotation of spindles by reducing friction. Therefore, it would have been obvious to one of ordinary skill in the art at the time of the

Art Unit: 3654

invention to provide Ferrier with bearing associated with the spindle to allow for smooth rotation thereof.

Response to Arguments

Applicant's arguments with respect to claim 2 have been considered but are moot in view of the new ground(s) of rejection. It is regretted that, at this time, the Examiner does not have any suggestions to Applicant's claim language to overcome the prior art of record.

Conclusion

Applicant's amendment necessitated the new ground of rejection, e.g. "a spindle having associated bearings, the spindle being coupled to the deck, ...two vertical safety brackets".

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
